FULFILLMENT AND REFILL REMINDER SUPPORT SERVICES

Vivitrol2gether Patient Support Services can provide you with resources including dedicated Nurse Coordinator* patient services to help patients along their recovery journey. Nurse Coordinators help provide logistical support for your patients during VIVITROL treatment and can provide appointment reminders and follow-up calls. When prescribing VIVITROL to patients, please let them know about the availability of this patient-focused program during their treatment.

How it Works

- 1** A Vivitrol2gether Nurse Coordinator will make an **introductory call** to each newly enrolled patient to answer any logistical questions once their prescription has been sent to a pharmacy.
- 2** An **appointment reminder call** will be made prior to each appointment.
- 3** A **follow-up call** will take place after each appointment.
- 4** Unless the patient opts out of receiving calls, **Steps 2 and 3 will take place monthly** as long as the patient is still being prescribed VIVITROL.
