

TRANSITION OF CARE PATIENT SUPPORT SERVICES

Vivitrol2getherSM is a customized patient support services program that offers transition of care services. We're with you along the way to support your recovery journey. Our services can help you find a healthcare provider during transition.

Find a provider: [VIVITROL.com/Locator](https://www.vivitrol.com/locator)

Use the Provider Locator tool to find VIVITROL provider options in a specific area as part of your transition plan. This online resource is used to connect you to healthcare providers who can prescribe and/or administer VIVITROL in a specific area.

When searching for a new provider, it can be helpful to ask these questions:

- Are you currently taking new patients?
- Do you accept my insurance? (have insurance information handy)
- Will your office be able to provide follow-on injections in the necessary time?

NURSE COORDINATOR TRANSITION SUPPORT SERVICES

A Vivitrol2getherSM Nurse Coordinator can help you find a provider in your new location. Your Nurse Coordinator can also help with injection appointment reminders and follow-up calls. Have more questions?

→ **Call 1-800-VIVITROL** (1-800-848-4876)
Monday-Friday, 9am-8pm ET
